

DAYTON NATIONAL CEMETERY LANDSCAPE RENOVATION PLAN

Client: National Cemetery System,
Department of Veterans Affairs
Location: Dayton, Ohio
Size: 17 acres

An expansion master plan was created for a 17 acre expansion area to this 70 acre historic cemetery established in 1876. This was one of four original Soldiers' Home sites created by one of President Lincoln's last bills signed. The program included the creation of a grave site expansion area, the addition of ceremonial and memorial plazas, restoration and in-fill expansion to the main cemetery, creation of a new garden niche, interment areas, a future columbaria, a scattering garden, arboretum plantings, entry and landscape improvements, maintenance / service yard additions, and historical / interpretive outdoor displays.
