

Client: Cincinnati Country Day School
Location: Cincinnati, Ohio
Size: 8 acres

CINCINNATI COUNTRY DAY SCHOOL

A site master plan and improvement program was prepared to create a safe and attractive gateway to the campus. Key elements of the plan included a main entry roadway, new entrance signage, parking lot expansion, and athletic fields.

The hand-carved timber entry sign punctuated the new road and gateway, surrounded by both permanent plantings and perennial accent plant in school colors. Other elements included handicapped accessibility, memorial tree plantings, and a memorial bench.

This plan was prepared by Gary Meisner while a partner at BMA Inc.
