

# THE CHRIST HOSPITAL ENTRANCE & GARDENS

Client: The Christ Hospital  
Location: Cincinnati, Ohio  
Size: +/- 10 acres

Christ Hospital overlooks downtown Cincinnati at the crest of Mt. Auburn. Its symbolic tower is instantly recognized citywide. The entry master plan reorganized the entire entrance area creating a grand mall and lushly landscaped entry garden for the expanding hospital. The main drive brings visitors into the site on axis with the great tower and a new fountain plaza. New gardens are being added each year as the complex grows. This project was prepared by Gary Meisner, while as a partner at BMA Inc. and M+A.
